Dermatology Postgraduate MCQs and Revision Notes (MasterPass) By James Halpern, Asad Salim

Postgraduates studying dermatology can face a frustrating lack of appropriate revision aids: reference books are often too exhaustive or out-of-date, while undergraduate and introductory texts lack the necessary detail and depth. This book is specifically designed for postgraduate examinations, in particular the Royal College of Physicians (RCP) Specialist Certificate Examination in dermatology, but also the MRCP, MRCGP, MRCPCH, RCPATH diploma in dermatopathology and the GP/CMT knowledge test. For general practitioners the book is the perfect accompaniment for the diploma in dermatology. Providing much more than a 'cheat sheet' of questions and answers, its chapters are designed to be studied in sequence, each building on the last to develop a strong overall understanding. Lists, tables and summaries help candidates to target their revision to commonly examined areas, while MCQs (multiple choice questions) following the widespread 'best of five' format allow candidates to test their knowledge. 'It is my hope that reading this book will save postgraduates from making their own notes and allow them more time to concentrate on what is truly important - looking after patients.' - James Halpern in his Preface 'There is a lot to learn in Dermatology. Browsing through [this book] will help you understand the standards expected. Working through the examples will focus the mind and expose your weak spots.' - from the Foreword by Celia Moss.

Editorial Review

About the Author

Drs. James Halpern and Mary Tramontin each possess a range of experiences in many professional worlds: academia, private practice, public service, crisis counseling, forensic psychology, research, writing, consulting, collaborating with the media, and teaching disaster mental health. Together, Mary and James were part of the Disaster Mental Health Services Function of the American Red Cross Chapter in New York City. As such they were among the very first mental health professionals notified when a disaster requiring mental health intervention occurred. They have both participated in multiple disasters of different scope, intensity, magnitude and meaning. They have been in the unique position to bear witness to the effects of cataclysmic moments on those involved, and have been present to help, and shape, the healing process. Mary has been a Disaster Mental Health practitioner since its inception in the early nineties. She organized the first state wide training in Disaster Mental Health in Pennsylvania and currently continues to serve on the Leadership Committee of the Disaster Mental Health Services function in New York City. James is currently the Chair of the Disaster Mental Health Services Function of Ulster County, New York. He has responded to large scale national disasters in different parts of the country. Both Mary and James were among the first mental health professionals to offer mental health support on September 11th, 2001. James founded and serves as the Director of the Institute for Disaster Mental Health at the State University of New York at New Paltz.

Users Review

From reader reviews:

John Ashton:

Information is provisions for anyone to get better life, information currently can get by anyone from everywhere. The information can be a understanding or any news even a huge concern. What people must be consider while those information which is from the former life are challenging to be find than now's taking seriously which one works to believe or which one typically the resource are convinced. If you have the unstable resource then you have it as your main information we will see huge disadvantage for you. All those possibilities will not happen in you if you take Dermatology Postgraduate MCQs and Revision Notes (MasterPass) as your daily resource information.
