Editorial Review

From Library Journal

A climbing bum in the late 1970s, Waterman matured into journalism and writing books for the American Alpine Club. Here, he writes of his climbing goal, Mount McKinley (which Native Americans called Denali). While he profiles Bradford Washburn, the Old Man of Denali, and examines sympathetically two feuding climbers whose 1967 expedition ended in tragedy, the greater part of his book deals with people, events, and conditions on and around Denali in the last decade. Each chapter centers on a particular topic that Waterman interweaves with personal reminiscence; they make a whole in which the mountain is more interesting than the climbing. Libraries should buy for Alaskan or climbing collections.

From Kirkus Reviews

Tales from the mean side of Denali, from a young freelancer with a fast-growing reputation for writing fine climbing stories. Waterman spent ten years becoming intimate with Denali, the High One, once known as Mount McKinley, the highest point in North America. In these ten pieces (most previously published), he tells of his years guiding and working with the emergency rescue team, getting to know the strange characters who frequent the mountain's flanks, experiencing its many moods, running into grizzlies. In the tradition of good adventure tales, the stories bring the hair up on your neck but are written in such an understated fashion they take on the feel of dreamscapes--or of nightmare. That's because Waterman has become fond of climbing in winter a mountain renowned for its malevolent weather even at the height of summer, if such a season can be said to exist on its slopes (Minus 148 Degrees, by Art Davidson, is a well-known book about winter climbing on Denali). On one climb, fluid rapidly filling his lungs, the cold so intense it had a deep-space quality, Waterman came within yards of the summit but wasn't in the least interested in going on. He wanted down, which was fine after all, for the journey had been the point, not the summit. The author shows particular flair in his portraits of two climbers, John Waterman (no relation) and Mugs Stumps, both strange characters, both capable of extraordinary climbing feats, both dead. Indeed, death is found everywhere here- -under an avalanche, down a crevasse, in the air. Arresting stories from a Denali junkie. A pleasure to read, although most readers won't be sorry to have missed the trip. (Eight pages of photos--not seen) -- *Copyright ©1994, Kirkus Associates, LP. All rights reserved.*

Users Review

From reader reviews:

Crystal Scott:

A lot of people always spent their very own free time to vacation or perhaps go to the outside with them friends and family or their friend. Do you realize? Many a lot of people spent they free time just watching TV, or maybe playing video games all day long. If you want to try to find a new activity honestly, that is look different you can read a book. It is really fun for yourself. If you enjoy the book which you read you can spent 24 hours a day to reading a book. The book In the Shadow of Denali: Life and Death on Alaska's Mt. McKinley it is rather good to read. There are a lot of those who recommended this book. These folks were enjoying reading this book. When you did not have enough space to develop this book you can buy the actual e-book. You can m0ore simply to read this book from the smart phone. The price is not to cover but

this book offers high quality.

William Lyons:

Do you one of the book lovers? If so, do you ever feeling doubt if you find yourself in the book store? Try to pick one book that you just dont know the inside because don't determine book by its deal with may doesn't work is difficult job because you are frightened that the inside maybe not while fantastic as in the outside seem likes. Maybe you answer might be In the Shadow of Denali: Life and Death on Alaska's Mt. McKinley why because the excellent cover that make you consider concerning the content will not disappoint you. The inside or content is usually fantastic as the outside or even cover. Your reading 6th sense will directly assist you to pick up this book.

Jennifer Witherspoon:

Do you like reading a book? Confuse to looking for your preferred book? Or your book seemed to be rare? Why so many issue for the book? But almost any people feel that they enjoy intended for reading. Some people likes reading, not only science book and also novel and In the Shadow of Denali: Life and Death on Alaska's Mt. McKinley as well as others sources were given information for you. After you know how the truly amazing a book, you feel desire to read more and more. Science reserve was created for teacher or maybe students especially. Those guides are helping them to increase their knowledge. In some other case, beside science e-book, any other book likes In the Shadow of Denali: Life and Death on Alaska's Mt. McKinley to make your spare time far more colorful. Many types of book like here.

Miguel Sherman:

As a college student exactly feel bored to be able to reading. If their teacher asked them to go to the library or make summary for some guide, they are complained. Just little students that has reading's heart or real their leisure activity. They just do what the trainer want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that reading through is not important, boring and also can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this In the Shadow of Denali: Life and Death on Alaska's Mt. McKinley can make you truly feel more interested to read.
