Teaching STEM in the Early Years: Activities for Integrating Science, Technology, Engineering, and Mathematics (NONE) By Sally Moomaw

More than 85 activities that support and extend children's learning in the four STEM disciplines

Stimulate and engage children's thinking as you integrate STEM experiences throughout your classroom. These engaging, developmentally appropriate activities maximize children's learning in science, technology, engineering, and mathematics. Each experience combines at least two STEM disciplines and incorporates materials and situations that are interesting and meaningful to children. Use this book to discover the many possibilities for teaching STEM to young children, including ideas for

Learning centers

Cooking, art, music, block play, and sensory table activities

Outdoor time

Project-centered curriculum

Quick activities that require minimal preparation on your part

Field trips

With the growing focus on early childhood mathematics and science, this book is a much-needed resource for every early childhood classroom. It will encourage you to think differently about STEM education, and you will see how easy it is to accommodate curriculum goals and learning standards in math and science activities.

Sally Moomaw, EdD, is an assistant professor of early childhood education at the University of Cincinnati. She is the author of eight other Redleaf Press books and a frequent presenter at workshops and conferences across the country. Much of Dr. Moomaw's research and teaching is in the area of STEM education.

Editorial Review

Review

“A great resource for easing teachers into the world of STEM. Dr. Moomaw has assembled an easy to use guide for teachers to navigate the waters of integration based upon best practices and her many years of experience in this realm. A must have for all!”

—Dr. Carla C. Johnson, associate professor of science education, University of Cincinnati, and editor, *School Science and Mathematics Journal*

“Creative and innovative STEM learning centers. The clear visuals and comprehensive lesson overviews allow for seamless lesson creation and implementation.”

—Jaumall Davis, preschool intervention teacher, Cincinnati Public Schools

About the Author

Sally Moomaw: Sally Moomaw, EdD, is an assistant professor in early childhood education and special education at the University of Cincinnati. Previously, she was a preschool teacher and the director for professional development at the University of Cincinnati's Arlitt Center. Dr. Moomaw holds a bachelor's degree in music, a master's in child development, and a doctorate in special education from the University of Cincinnati. She is the co-author of eleven books on early childhood education, including the *More Than...* series and *Lessons from Turtle Island*. She also designed a Mathematics Tool Kit for the Ohio Department of Education to help teachers implement state content standards and has presented numerous workshops for colleges, school districts, and conferences throughout the country.

Users Review

From reader reviews:

James Blouin:

Hey guys, do you wants to finds a new book you just read? May be the book with the concept Teaching

STEM in the Early Years: Activities for Integrating Science, Technology, Engineering, and Mathematics (NONE) suitable to you? The particular book was written by renowned writer in this era. The book untitled Teaching STEM in the Early Years: Activities for Integrating Science, Technology, Engineering, and Mathematics (NONE) is the main of several books this everyone read now. This book was inspired a lot of people in the world. When you read this guide you will enter the new way of measuring that you ever know prior to. The author explained their strategy in the simple way, therefore all of people can easily to be aware of the core of this reserve. This book will give you a great deal of information about this world now. In order to see the represented of the world in this particular book.

Martha Silva:

Are you kind of occupied person, only have 10 or maybe 15 minute in your morning to upgrading your mind proficiency or thinking skill possibly analytical thinking? Then you are receiving problem with the book as compared to can satisfy your short time to read it because this all time you only find e-book that need more time to be read. Teaching STEM in the Early Years: Activities for Integrating Science, Technology, Engineering, and Mathematics (NONE) can be your answer since it can be read by you who have those short time problems.

James Moore:

The book untitled Teaching STEM in the Early Years: Activities for Integrating Science, Technology, Engineering, and Mathematics (NONE) contain a lot of information on that. The writer explains her idea with easy way. The language is very straightforward all the people, so do not necessarily worry, you can easy to read that. The book was written by famous author. The author will take you in the new period of time of literary works. You can actually read this book because you can keep reading your smart phone, or device, so you can read the book with anywhere and anytime. In a situation you wish to purchase the e-book, you can open up their official web-site along with order it. Have a nice examine.

Kayla Congdon:

Beside this particular Teaching STEM in the Early Years: Activities for Integrating Science, Technology, Engineering, and Mathematics (NONE) in your phone, it can give you a way to get closer to the new knowledge or data. The information and the knowledge you can got here is fresh in the oven so don't possibly be worry if you feel like an old people live in narrow town. It is good thing to have Teaching STEM in the Early Years: Activities for Integrating Science, Technology, Engineering, and Mathematics (NONE) because this book offers to you readable information. Do you sometimes have book but you rarely get what it's facts concerning. Oh come on, that would not happen if you have this within your hand. The Enjoyable arrangement here cannot be questionable, such as treasuring beautiful island. Use you still want to miss the idea? Find this book in addition to read it from at this point!
