The Republican Aventine and Rome's Social Order By Lisa Mignone

The Aventine—one of Rome’s canonical seven hills—has long been identified as the city’s plebeian district, which housed the lower orders of society and served as the political headquarters, religious citadel, and social bastion of those seeking radical reform of the Republican constitution. Lisa Marie Mignone challenges the plebeian-Aventine paradigm through a multidisciplinary review of the ancient evidence, demonstrating that this construct proves to be a modern creation. Mignone uses ancient literary accounts, material evidence, and legal and semantic developments to reconstruct and reexamine the history of the Aventine Hill. Through comparative studies of premodern urban planning and development, combined with an assessment of gang violence and ancient neighborhood practices in the latter half of the first century BCE, she argues that there was no concentration of the disadvantaged in a “plebeian ghetto.” Thus residency patterns everywhere in the *caput mundi*, including the Aventine Hill, likely incorporated the full spectrum of Roman society.

The myth of the “plebeian Aventine” became embedded not only in classical scholarship, but also in modern political and cultural consciousness; it has even been used by modern figures to support their political agenda. Yet *The Republican Aventine and Rome's Social Order* makes bold new claims regarding the urban design and social history of ancient Rome and raises a significant question about ancient urbanism and social stability more generally: Did social integration reduce violence in premodern cities and promote urban concord?

Editorial Review

Review

“Mignone has adopted the best traditions of classical studies in combining literature, epigraphy, law, and archaeology to reconstruct life in the ancient city. The Republican Aventine will provide an integrated view of life in ancient Rome that benefits from a 360-degree perspective on one neighborhood, giving a kind of deep description that is often hard to come by for the ancient world because of the nature of the sources.”

—Cynthia Bannon, Indiana University

“It is amply evident that Mignone has done her homework and knows the relevant scholarship inside and out.”

—Karl Galinsky, University of Texas
