**Billions of Years, Amazing Changes: The Story of Evolution** By Laurence Pringle

Ever since Charles Darwin revealed his landmark ideas about evolution in 1859, new findings have confirmed, expanded, and refined his concepts. Now, author Laurence Pringle, one of the nation's premier science writers, brings together the pillars of evidence that support our understanding of evolution in this ALA Notable Children's Book. Field biology, genetics, geology, paleontology, and medicine all add to the impressive structure of evidence. With a perfect blend of science and art, renowned illustrator Steve Jenkins creates stunning new depictions of important concepts and key evolutionary scientists. More than fifty photographs capture natural marvels, including awe-inspiring fossils, life forms, and geological wonders. The result is a full, clear, and up-to-date account of the monumental evidence supporting the modern view of evolution.

### Editorial Review

#### Review

\* "A necessary title for most school and public libraries serving young readers." --*Kirkus Reviews*, starred review

\* "Simpler, and far more lively than Thom Holmes's dry *Evolution* (Chelsea House, 2011), more difficult than Steve Jenkins's own elegant *Life on Earth: The Story of Evolution* (Houghton Harcourt, 2002), and more solid than Robert Winston's somewhat fragmentary *Evolution Revolution* (DK, 2009), Pringle's intelligent and eye-catching book is an engaging, readable lodestone for researchers." --*School Library Journal*, starred review

\* "A logical, well-organized, easy to understand book about the often controversial issues between evolutionists and creationists." --*Library Media Connection*, starred review
