Community Policing and Problem Solving: Strategies and Practices (6th Edition) By Kenneth J. Peak, Ronald W. Glensor

COMMUNITY POLICING AND PROBLEM SOLVING: STRATEGIES AND PRACTICES, 6/e is about policing at its most important and challenging levels—in neighborhoods and communities across the nation and abroad. Unique in perspective, its focus is on community policing and problem solving—and the processes that are being implemented under COPPS to control and prevent crime, disorder and fear. Extremely applied, this text focuses on daily processes and tactics and how and why agencies are revolutionizing their traditional philosophy and operations. This sixth edition provides the latest on policing in an information age, how the economy is impacting policing practices and new information concerning COPPs initiatives across the United States.

Editorial Review

Review

"This book represents one of the very top books on the market... If I were to teach a contemporary policing class with a problem-solving focus, I would undoubtedly use this one. No other book competes with this one on that level." -- Dr. Quint Thurman, Department of Criminal Justice, Wichita State University

From the Publisher

This text was written in response to a need for a book that combines both community-policing and problem-oriented policing concepts. These are relatively new concepts now being employed by innovative police agencies worldwide. This book explains the processes and terms, what they mean and how they are applied, as well as how they are implemented and evaluated.

From the Back Cover

This sixth edition of *Community Policing and Problem Solving: Strategies and Practices* continues to present community-oriented policing and problem solving (COPPS) from a highly applied perspective, drawing on the authors' combined 75 years of practitioner/academic experience. Included are more than 50 exhibits and dozens of additional case studies and examples of problem solving.

This sixth edition continues to emphasize the "best practices" with COPPS for addressing crime and disorder. Included are chapters on the evolution of policing, community engagement, crime prevention, changing agency culture, planning and implementation, policing a diversity society, and futures, chapters specifically address COPPS in domestic and foreign venues. Furthermore, two chapters focus on "what works" with drugs, gangs, and youth crimes, identity theft, domestic violence, prostitution, stalking, and other selected crimes and special populations. It also showcases new information technologies and other management tools for engaging in crime analysis.

"Learn by Doing" exercises are newly added to each chapter, all of which also contain key terms and concepts, learning objectives, and items for review sections.

In sum, this book provides a comprehensive, practical view of the policing strategy that has encircled the globe and represents America's approach to combating crime and neighborhood disorder.

Users Review

From reader reviews:

Dennis James:

Book is actually written, printed, or outlined for everything. You can know everything you want by a publication. Book has a different type. We all know that that book is important point to bring us around the world. Beside that you can your reading expertise was fluently.
