### Lust in Translation: Infidelity from Tokyo to Tennessee By Pamela Druckerman

Compared to the citizens of just about every other nation, Americans are the least adept at having affairs, have the most trouble enjoying them, and suffer the most in their aftermath and Pamela Druckerman has the facts to prove it. The journalist's surprising findings include:

- Russian spouses don't count beach resort flings as infidelity
- South Africans consider drunkenness an adequate excuse for extramarital sex
- Japanese businessmen believe, "If you pay, it's not cheating."

Voyeuristic and packed with eyebrow-raising statistics and interviews, *Lust in Translation* is her funny and fact-filled world tour of infidelity that will give new meaning to the phrase "practicing monogamy."

### Editorial Review

#### From Publishers Weekly

Former foreign correspondent for the *Wall Street Journal* now living in Paris, Druckerman offers an anecdotal rather than a scholarly exploration of the international etiquette of adultery. From American prudishness about the subject to French discretion, and from Russian vehemence about the obligatory affair to Japanese adherence to the single marital futon, one factor rings true in all cases: people lie about sex. Druckerman interviews numerous adulterers, starting with the conflicted Americans who "gain status by radiating an aura of monogamy" while sneaking around on the side; guilt more often than not brings them to confession and absolution by therapy. Druckerman is at pains to uncover reliable statistics about infidelity where such research is suppressed, such as in Islamic countries or those formerly Communist; in contrast, Finland demonstrates the best sex research, e.g., clearly half of men there enjoy "parallel relationships." Druckerman concludes from one study that people in warmer climates cheat more (Scandinavia is the exception), while people in wealthy countries tend to cheat less than those in poor countries (exception: Kazakhstan). Druckerman found that the rules of sexual cultures differ widely: adultery is the least dangerous social evil in Russia, while in Japan, buying sex doesn't count as cheating. Druckerman's work is quirky, digressive and media quotable. (Apr.)

#### From Booklist

Here's a surprise: the U.S., which in the past 30 years has grown more open-minded about some sexual issues (such as homosexuality and premarital intercourse), has at the same time grown substantially stricter when it comes to extramarital affairs. Americans are vehemently against adultery, ranking it just a bit below polygamy and human cloning on the list of major no-nos. But in many other countries adultery is not such a big deal--often it's accepted if not formally condoned. In her quest to find out what it is about extramarital sex that provokes such widely differing reactions, the author visited 10 countries, including the U.S., Russia, Japan, and France, and spoke with adulterers, cuckolded spouses, sexologists, marriage counselors, and other interested parties. Interestingly, there seems to be no generally accepted view of adultery. Is it a sin, or a harmless pastime? It depends on whom you speak to, and where you speak to them. This engagingly written, intellectually provocative book is sure to be hotly debated by special-interest groups and individuals who think they know what's best for everybody else. *David Pitt*

#### **Teresa Graham:**

Do you like reading a e-book? Confuse to looking for your selected book? Or your book has been rare? Why so many concern for the book? But virtually any people feel that they enjoy for reading. Some people likes studying, not only science book but also novel and Lust in Translation: Infidelity from Tokyo to Tennessee or maybe others sources were given expertise for you. After you know how the good a book, you feel desire to read more and more. Science publication was created for teacher or maybe students especially. Those ebooks are helping them to bring their knowledge. In some other case, beside science e-book, any other book likes Lust in Translation: Infidelity from Tokyo to Tennessee to make your spare time more colorful. Many types of book like here.

#### **James Haney:**

As a scholar exactly feel bored to help reading. If their teacher requested them to go to the library or to make summary for some guide, they are complained. Just little students that has reading's soul or real their leisure activity. They just do what the professor want, like asked to go to the library. They go to right now there but nothing reading really. Any students feel that looking at is not important, boring and also can't see colorful pics on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Lust in Translation: Infidelity from Tokyo to Tennessee can make you feel more interested to

read.
