Ecology: The Experimental Analysis of Distribution and Abundance: Hands-On Field Package (5th Edition) By Charles J. Krebs

This best-selling majors ecology book continues to present ecology as a series of problems for readers to critically analyze. No other text presents analytical, quantitative, and statistical ecological information in an equally accessible style. Reflecting the way ecologists actually practice, the book emphasizes the role of experiments in testing ecological ideas and discusses many contemporary and controversial problems related to distribution and abundance. Throughout the book, Krebs thoroughly explains the application of mathematical concepts in ecology while reinforcing these concepts with research references, examples, and interesting end-of-chapter review questions. Thoroughly updated with new examples and references, the book now features a new full-color design and is accompanied by an art CD-ROM for instructors.

The field package also includes *The Ecology Action Guide*, a guide that encourages readers to be environmentally responsible citizens, and a subscription to **The Ecology Place** (www.ecologyplace.com), a web site and CD-ROM that enables users to become virtual field ecologists by performing experiments such as estimating the number of mice on an imaginary island or restoring prairie land in Iowa. For college instructors and students.

About the Author

Charles Krebs is Professor of Zoology at the University of British Columbia in Vancouver and has been teaching for 40 years. He received his B.S. from the University of Minnesota and earned both his M.A. and Ph.D. from the University of British Columbia. In addition to teaching ecology, he has worked extensively on the population of rodents in Northern Canada, the United States, and Australia, trying to understand the mechanisms behind population fluctuations. He has published three ecology textbooks including **Ecology: The Experimental Analysis of Distribution and Abundance, Fifth Edition** and **Ecological Methodology, Second Edition** both published by Benjamin Cummings.

Users Review

From reader reviews:

William Marquis:

Reading a book can be one of a lot of pastime that everyone in the world likes. Do you like reading book consequently. There are a lot of reasons why people like it.
