By Antony Wood, Payam Bahrami, Daniel Safarik

Green Walls in High-Rise Buildings By Antony Wood, Payam Bahrami, Daniel Safarik

The Council on Tall Buildings and Urban Habitat has produced four Technical Guides to date, since the series launched in late 2012. Each of these guides is the product of a CTBUH Working Group committees formed specifically to address focused topical subjects in the industry. The intention of each guide is the same to provide working knowledge to the typical building owner or professional who wants a better understanding of available options for improving tall buildings, and what affects their design. The object of the series is to provide a tool-kit for the creation of better-performing tall buildings, and to spread the understanding of the considerations that need to be made in designing tall. The CTBUH is the world s leading resource for professionals focused on the design, construction, and operation of tall buildings and future cities. A not-for-profit organization based at the Illinois Institute of Technology, Chicago, the group facilitates the exchange of the latest knowledge available on tall buildings around the world.

Editorial Review

About the Author
Antony Wood has been Executive Director of the Council on Tall Buildings and Urban Habitat since 2006. He is chair of the CTBUH Tall Buildings and Sustainability Working Group. Based at the Illinois Institute of Technology, Antony is an Associate Professor in the College of Architecture and is also a Special Professor of Tall Buildings at the College of Architecture and Urban Planning at Tongji University, Shanghai. His field of specialism is the sustainable design of tall buildings.
Payam Bahrami is a Senior Research Associate at the CTBUH. He is responsible for preparing research proposals and conducting and developing research projects, in conjunction with CTBUH members and institutes. He has worked on research development in the areas of sustainability, energy efficiency, and smart habitat.
Daniel Safarik is Editor of Publications at the CTBUH. A technical and marketing writer who also trained as an architect, he was the director of marketing for Brooks + Scarpa Architects (formerly Pugh + Scarpa Architects) from 2008 to 2011. Safarik has covered technology for business publications for 16 years, and the web editor for The Wall Street Journal.

Users Review

From reader reviews:

Toni Styer:
