The Dictators: Hitler's Germany, Stalin's Russia By Richard Overy Ph.D.

"A book of great importance; it surpasses all others in breadth and depth."
-Commentary

If the past century will be remembered for its tragic pairing of civilized achievement and organized destruction, at the heart of darkness may be found Hitler, Stalin, and the systems of domination they forged. Their lethal regimes murdered millions and fought a massive, deadly war. Yet their dictatorships took shape within formal constitutional structures and drew the support of the German and Russian people. In the first major historical work to analyze the two dictatorships together in depth, Richard Overy gives us an absorbing study of Hitler and Stalin, ranging from their private and public selves, their ascents to power and consolidation of absolute rule, to their waging of massive war and creation of far-flung empires of camps and prisons. The Nazi extermination camps and the vast Soviet Gulag represent the two dictatorships in their most inhuman form. Overy shows us the human and historical roots of these evils. 16 pages of illustrations

Editorial Review

From Publishers Weekly

Comparisons between Hitler and Stalin and their regimes are nothing new, but this dense, comprehensive, scholarly investigation is more nuanced than most. Overy sidesteps the simplistic debate over which dictator was more evil and focuses on how they, and the systems they created, were similar and different. He delves into their regimes thematically, in topics ranging from police states and economic systems to wartime behavior. The results yield intriguing historical insights, although the book demands a careful reading. For instance, Overy notes that both Hitler and Stalin created cults of personality, but for Hitler "personality was the defining criterion of leadership"; Stalin, on the other hand, emphasized Communist ideology first and embraced a personality cult only when he realized it could cement his stranglehold on power. Interestingly, while the Nazi Party increasingly relied on workers' support and ideology, Stalin's Communist Party—the "vanguard of the proletariat"—relied more and more on middle-class technocrats. At times Overy restates points long known to historians, e.g., both leaders pursued negative utopias, but from different bases: class warfare was Stalin's justification, while Hitler chose biological purity. But when he points out the differences in their policies toward minorities and nationalities—Hitler adhered to a racial ladder, while Stalin, a Georgian, flip-flopped to suit his political goals—Overy's analytical strength and depth of knowledge emerges. 32 pages illus.; maps.

From [Booklist](#)

Conceding that Alan Bullock's *Hitler and Stalin* (1991) is the standard dual biography, Overy tackles an old controversy about Hitlerism and Stalinism: the degree to which they are similar. Assessing kinship may strike nonhistorians as impertinent in the context of each system's mountain of victims, but Overy explains this work as a necessary empirical foundation for the historiography of the two dictatorships. The dictators' personalities are brought forward only as they pertain to their governing and propaganda apparatuses; most pertinent of all is the way each man regarded himself as a world-historical actor with a "redemptive" mission. Overy spreads that insidiously essential aspect of the Hitler and Stalin dictatorships across the divisions of his analysis, which include the cultlike panegyrics to the leader; their popular support; their military buildups; and, crucially, their fantasy ideologies, without which their crimes and World War II are difficult to imagine occurring. From a notable historian of WWII, this serious integration of extant scholarship will be of use to student and professional researchers. *Gilbert Taylor*

Review

"The most comprehensive, up-to-date and cogently argued comparison yet published. ... A richly insightful study."

Users Review

From reader reviews:

Betty Adkins:

Book is to be different for every grade. Book for children until eventually adult are different content. As it is known to us that book is very important usually. The book The Dictators: Hitler's Germany, Stalin's Russia

seemed to be making you to know about other knowledge and of course you can take more information. It is quite advantages for you. The guide The Dictators: Hitler's Germany, Stalin's Russia is not only giving you far more new information but also to be your friend when you feel bored. You can spend your own personal spend time to read your reserve. Try to make relationship while using book The Dictators: Hitler's Germany, Stalin's Russia. You never sense lose out for everything when you read some books.

Christina Mundell:

In this 21st one hundred year, people become competitive in every way. By being competitive currently, people have do something to make these people survives, being in the middle of the actual crowded place and notice simply by surrounding. One thing that often many people have underestimated that for a while is reading. Yes, by reading a reserve your ability to survive raise then having chance to stand than other is high. In your case who want to start reading a new book, we give you this specific The Dictators: Hitler's Germany, Stalin's Russia book as basic and daily reading publication. Why, because this book is greater than just a book.

Rick Briones:

Do you have something that you prefer such as book? The e-book lovers usually prefer to select book like comic, limited story and the biggest some may be novel. Now, why not striving The Dictators: Hitler's Germany, Stalin's Russia that give your enjoyment preference will be satisfied simply by reading this book. Reading routine all over the world can be said as the means for people to know world a great deal better then how they react to the world. It can't be mentioned constantly that reading habit only for the geeky man or woman but for all of you who wants to be success person. So , for all you who want to start reading through as your good habit, you could pick The Dictators: Hitler's Germany, Stalin's Russia become your current starter.

Ricardo Hempel:

As a university student exactly feel bored to be able to reading. If their teacher requested them to go to the library as well as to make summary for some e-book, they are complained. Just minor students that has reading's heart or real their interest. They just do what the professor want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that reading through is not important, boring and also can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this period, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this The Dictators: Hitler's Germany, Stalin's Russia can make you sense more interested to read.
