## The Routledge Companion to Phenomenology (Routledge Philosophy Companions) From Routledge

Phenomenology was one of the twentieth century's major philosophical movements and continues to be a vibrant and widely studied subject today. *The Routledge Companion to Phenomenology* is an outstanding guide and reference source to the key philosophers, topics and themes in this exciting subject, and essential reading for any student or scholar of phenomenology.

Comprising over fifty chapters by a team of international contributors, the *Companion* is divided into five clear parts:

- main figures in the phenomenological movement, from Brentano to Derrida
- main topics in phenomenology
- phenomenological contributions to philosophy
- phenomenological intersections
- historical postscript.

Close attention is paid to the core topics in phenomenology such as intentionality, perception, subjectivity, the self, the body, being and phenomenological method. An important feature of the *Companion* is its examination of how phenomenology has contributed to central disciplines in philosophy such as metaphysics, philosophy of mind, moral philosophy, aesthetics and philosophy of religion as well as disciplines beyond philosophy such as race, cognitive science, psychiatry, literary criticism and psychoanalysis.

## Editorial Review

### Review

"Sebastian Luft and Søren Overgaard, with the help of over sixty contributors, have captured the excitement of this evolving patchwork named 'phenomenology'. *The Routledge Companion to Phenomenology* will serve as an invaluable reference volume for students, teachers, and scholars of phenomenology, as well as an accessible introduction to phenomenology for philosophers from other specialties or scholars from other disciplines." - Donald A. Landes, *International Journal of Philosophical Studies*

"A fascinating and amazingly comprehensive account of the major issues in phenomenology, written by an international group of scholars who are themselves expanding its scope and making striking contributions to its importance and growth. Especially engaging are the essays dealing with phenomenology's contributions to philosophy and its intersections with other fields of study." - Donn Welton, *Stony Brook University, USA*

"This impressive volume is exceptionally comprehensive and cogent. It affirms the unity of phenomenology as a movement and testifies to its versatility and vitality as a philosophical discipline. The many excellent contributions makes this an invaluable resource for students and researchers alike." - Hanne Jacobs, *Loyola University Chicago, USA*

"A remarkable collection that provides authoritative coverage of just about every name and topic that might reasonably be associated with phenomenology and the contemporary phenomenological movement. The distinguished list of contributors shows no editorial bias; the editors' own general introduction is excellent; and the diversity of the entries and authors (many of them well-known for work on their topic) make this volume both useful to scholars and accessible to a very wide range of interested professionals. An ideal, one-volume resource, fully worthy of being added to the *Routledge Companions* series." – Robert Scharff, *University of New Hampshire, USA*

"Phenomenology is one of the most important movements of the 20th Century and, as the title suggests, this book provides an ideal companion to its study, imparting both a broad overview and illuminating conceptual corners and historical back alleys. The range of topics is wide and well-chosen, the authors' expertise deep and their writing clear. It will prove extremely useful to those looking for an initial orientation in the subject as well as to anyone wanting to deepen their understanding or explore less familiar aspects. You really can't go wrong with this book." – Lee Braver, *Hiram College, USA*

"This is a superb collection of essays by leading scholars in the field, covering all aspects of phenomenology. This volume will be an essential resource for students and scholars alike." – Taylor Carman, *Barnard College, USA*

**"This volume is an outstanding collection of essays by top scholars in phenomenology and an expansive addition to reference material on these perspectives."** – *Shara Knight, Ph.D. Candidate, Pacifica Graduate Institute, USA*

#### Users Review

##### From reader reviews:

##### Joshua Phipps:

In this 21st century, people become competitive in every way. By being competitive currently, people have to do something to make these survive, being in the middle of the actual crowded place and notice by surrounding. One thing that sometimes many people have underestimated it for a while is reading. Yep, by reading a e-book your ability to survive increase then having chance to stand than other is high. In your case who want to start reading some sort of book, we give you this particular The Routledge Companion to Phenomenology (Routledge Philosophy Companions) book as beginning and daily reading reserve. Why, because this book is usually more than just a book.

##### Dustin Singh:

Nowadays reading books be than want or need but also get a life style. This reading behavior give you lot of advantages. The benefits you got of course the knowledge the rest of the information inside the book in which improve your knowledge and information. The data you get based on what kind of book you read, if you want have more knowledge just go with schooling books but if you want really feel happy read one along with theme for entertaining for example comic or novel. Typically the The Routledge Companion to Phenomenology (Routledge Philosophy Companions) is kind of publication which is giving the reader unstable experience.

##### Harry Blalock:

Reading a reserve tends to be new life style with this era globalization. With reading through you can get a lot of information that could give you benefit in your life. Having book everyone in this world could share their idea. Publications can also inspire a lot of people. Many author can inspire their very own reader with their story as well as their experience. Not only the storyline that share in the books. But also they write about the ability about something that you need example. How to get the good score toefl, or how to teach

children, there are many kinds of book that exist now. The authors in this world always try to improve their expertise in writing, they also doing some exploration before they write on their book. One of them is this The Routledge Companion to Phenomenology (Routledge Philosophy Companions).

**Rafael Perez:**
