Cognitive Poetics: An Introduction By Peter Stockwell

Cognitive poetics is a new way of thinking about literature, involving the application of cognitive linguistics and psychology to literary texts. This book is the first introductory text to this growing field.

In *Cognitive Poetics: An Introduction*, the reader is encouraged to re-evaluate the categories used to understand literary reading and analysis. Covering a wide range of literary genres and historical periods, the book encompasses both American and European approaches. Each chapter explores a different cognitive-poetic framework and relates it to a literary text. Including a range of activities, discussion points, suggestions for further reading and a glossarial index, the book is both interactive and highly accessible.

Cognitive Poetics: An Introduction is essential reading for students on stylistics and literary-linguistic courses, and will be of interest to all those involved in literary studies, critical theory and linguistics.

Users Review

From reader reviews:

Luke Shaffer:

Book is to be different for every grade. Book for children until eventually adult are different content. As we know that book is very important normally. The book Cognitive Poetics: An Introduction was making you to know about other know-how and of course you can take more information. It doesn't matter what advantages for you. The reserve Cognitive Poetics: An Introduction is not only giving you much more new information but also to get your friend when you feel bored. You can spend your personal spend time to read your publication. Try to make relationship using the book Cognitive Poetics: An Introduction. You never sense lose out for everything should you read some books.

Celia Redmond:

This Cognitive Poetics: An Introduction are generally reliable for you who want to become a successful person, why. The explanation of this Cognitive Poetics: An Introduction can be one of many great books you must have is actually giving you more than just simple examining food but feed anyone with information that maybe will shock your previous knowledge. This book is handy, you can bring it everywhere you go and whenever your conditions at e-book and printed ones. Beside that this Cognitive Poetics: An Introduction giving you an enormous of experience including rich vocabulary, giving you demo of critical thinking that we all know it useful in your day pastime. So , let's have it appreciate reading.

Juana Kitchen:

Exactly why? Because this Cognitive Poetics: An Introduction is an unordinary book that the inside of the e-book waiting for you to snap it but latter it will distress you with the secret it inside. Reading this book adjacent to it was fantastic author who write the book in such incredible way makes the content interior easier to understand, entertaining technique but still convey the meaning completely. So , it is good for you for not hesitating having this ever again or you going to regret it. This book will give you a lot of positive aspects than the other book have got such as help improving your expertise and your critical thinking way. So , still want to hold off having that book? If I had been you I will go to the publication store hurriedly.

Kimberly Casselman:

In this period of time globalization it is important to someone to receive information. The information will make someone to understand the condition of the world. The fitness of the world makes the information simpler to share. You can find a lot of referrals to get information example: internet, newspapers, book, and soon. You can view that now, a lot of publisher that will print many kinds of book. The book that recommended to you personally is Cognitive Poetics: An Introduction this book consist a lot of the information with the condition of this world now. This book was represented how can the world has grown up. The language styles that writer make usage of to explain it is easy to understand. The particular writer made some exploration when he makes this book. That is why this book appropriate all of you.
