**Manual of Assisted Reproductive Technologies and Clinical Embryology** By Pankaj Talwar

This manual is a comprehensive guide to Assisted Reproductive Technologies (ART) and Clinical Embryology. Beginning with an introduction to ART, the book discusses embryology and provides a step by step description of different types of ART. With contributions from international experts, this book includes a DVD illustrating different laboratory and cryobiology protocols. A section on the challenges of ART and possible problems that may be encountered is also included.
