Editorial Review

About the Author

Milan Sedliak

Milan Sedliak is a JavaScript specialist, jQuery and Cross-browser compatibility is one of his key strengths. He likes challenging tasks and he does everything he can to be at his best in this area. He has experience with all kinds of websites and a lot of technologies (eight+ years). Portfolios, company presentations, e-commerce, complicated reporting systems for telecommunication devices, PHP websites with MySQL or MS SQL, ASP.NET 3, 5 and 4 (C#) with MS SQL, etc.

He has a lot of experience in international environments and is currently employed by Skype as a software engineer specialized in front-end web technologies and cross-browser compatibility. In the past he has worked at Hewlett-Packard, Interoute and Intertec Media Group.

R. Rajesh Jeba Anbiah

R. Rajesh Jeba Anbiah is a very simple guy who first saw computers in 1998. He got addicted to programming and co-authored A to Z of C, a non-profit book on Turbo C/DOS programming, while pursuing Master of Computer Applications in The American College, Madurai. After graduation he joined Agriya **agriya.com**, then a startup company, and coded in Perl, Visual Basic, Delphi and heavily on PHP.

Currently he heads the projects division in Agriya, where he oversees challenging Web 2.0 sites development, web software products and labs initiatives. His goal at the workplace is to get big branding and coverage for his labs projects.

Roshan Bhattarai

Roshan Bhattarai holds a M. Sc. in IT degree and has previously worked in various IT companies in Nepal and India as a Web developer and Technical Lead. Currently, he co-owns and working as a CTO at Proshore.

Roshan owns and authors at one of the popular web development related blog at http://roshanbh.com.np.

Users Review

From reader reviews:

Frances Small:

What do you concerning book? It is not important to you? Or just adding material when you need something to explain what yours problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to try and do others business, it is give you a sense of feeling bored faster. And you have extra time? What did you do? Everybody has many questions above. They must answer that question because just their can do this. It said that about publication. Book is familiar in each person. Yes, it is appropriate. Because start from on kindergarten until university need that PHP Ajax Cookbook to read.

Mary Fleming:

Reading a book for being new life style in this calendar year; every people loves to study a book. When you learn a book you can get a large amount of benefit. When you read guides, you can improve your knowledge, since book has a lot of information on it. The information that you will get depend on what forms of book that you have read. If you want to get information about your research, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, this sort of us novel, comics, and also soon. The PHP Ajax Cookbook provide you with new experience in reading a book.

Jose Rosales:

You may spend your free time to see this book this guide. This PHP Ajax Cookbook is simple to deliver you can read it in the park, in the beach, train and also soon. If you did not have much space to bring the actual printed book, you can buy typically the e-book. It is make you simpler to read it. You can save typically the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.

Jewell Garza:

Many people spending their moment by playing outside along with friends, fun activity using family or just watching TV all day long. You can have new activity to invest your whole day by reading through a book. Ugh, think reading a book can really hard because you have to accept the book everywhere? It fine you can have the e-book, bringing everywhere you want in your Touch screen phone. Like PHP Ajax Cookbook which is finding the e-book version. So , why not try out this book? Let's find.
