Editorial Review

About the Author
Alfredo Cuzzocrea is a researcher at the Institute of High Performance Computing and Networking of the Italian National Research Council, Italy, and an adjunct professor at the Department of Electronics, Computer Science and Systems of the University of Calabria, Italy. His research interests include multidimensional data modelling and querying, data stream modelling and querying, data warehousing and OLAP, OLAM, XML data management, Web information systems modelling and engineering, knowledge representation and management models and techniques, Grid and P2P computing. He is author or co-author of more than 100 papers in referred international conferences (including EDBT, SSDBM, ISMIS, ADBIS, DEXA, DaWaK, DOLAP, IDEAS, SEKE, WISE, FQAS, SAC) and international journals (including DKE, JIIS, IJDWM, WIAS). He serves as program committee member of referred international conferences (including ICDM, SDM, PKDD, PAKDD, CIKM, ICDCS, ER, WISE, DASFAA, FQAS, SAC) and as review board member of referred international journals (including TODS, TKDE, TSMC, IS, DKE, JIIS, IPL, TPLP, COMPJ, DPDB, KAIS, INS, IJSEKE, FGCS). He also serves as PC Chair in several international conferences and as Guest Editor in international journals like JCSS, DKE, KAIS, IJBIDM, IJDMMM and JDIM.

Users Review

From reader reviews:

Irene Vaughan:

Do you have favorite book? For those who have, what is your favorite's book? Publication is very important thing for us to know everything in the world. Each guide has different aim or perhaps goal; it means that e-book has different type. Some people feel enjoy to spend their time and energy to read a book. They are really reading whatever they have because their hobby is reading a book. Consider the person who don't like reading a book? Sometime, person feel need book if they found difficult problem as well as exercise. Well, probably you will want this Intelligent Techniques for Warehousing and Mining Sensor Network Data.

Gabrielle Ponds:

Inside other case, little men and women like to read book Intelligent Techniques for Warehousing and Mining Sensor Network Data. You can choose the best book if you want reading a book. Given that we know about how is important a book Intelligent Techniques for Warehousing and Mining Sensor Network Data. You can add understanding and of course you can around the world by the book. Absolutely right, due to the fact from book you can know everything! From your country until finally foreign or abroad you will find yourself known. About simple thing until wonderful thing you are able to know that. In this era, you can open a book or even searching by internet gadget. It is called e-book. You should use it when you feel bored stiff to go to the library. Let's read.

Anna Baron:

Book is actually written, printed, or highlighted for everything. You can understand everything you want by a reserve. Book has a different type. We all know that that book is important point to bring us around the world. Adjacent to that you can your reading talent was fluently. A publication Intelligent Techniques for Warehousing and Mining Sensor Network Data will make you to end up being smarter. You can feel much more confidence if you can know about anything. But some of you think in which open or reading the book make you bored. It isn't make you fun. Why they can be thought like that? Have you in search of best book or suited book with you?

Jesus Rhode:

You can get this Intelligent Techniques for Warehousing and Mining Sensor Network Data by check out the bookstore or Mall. Only viewing or reviewing it could to be your solve issue if you get difficulties for the knowledge. Kinds of this publication are various. Not only by means of written or printed but also can you enjoy this book by e-book. In the modern era including now, you just looking because of your mobile phone and searching what your problem. Right now, choose your ways to get more information about your reserve. It is most important to arrange yourself to make your knowledge are still up-date. Let's try to choose proper ways for you.
