#### **Language Notes**

Text: English (translation)

Original Language: German

#### **From the Back Cover**

This is the first English translation of all of Kant's writings on moral and political philosophy collected in a single volume. No other collection competes with the comprehensiveness of this one. As well as Kant's most famous moral and political writings, the *Groundwork of the Metaphysics of Morals*, the *Critique of Practical Reason*, the *Metaphysics of Morals*, and *Toward Perpetual Peace*, the volume includes shorter essays and reviews, some of which have never been translated before. The translation of the *Metaphysics of Morals* by Mary Gregor appears in a new edition to conform to the guidelines of the Cambridge Edition and to reflect some widely accepted textual emendations adopted in a recent German edition of that work. The volume has been furnished with a substantial editorial apparatus including translators' introductions and explanatory notes to each text, and a general introduction to Kant's moral and political philosophy by Allen Wood. There is also an English-German and German-English glossary of key terms.
